Résumé

Designer and creative director, I help companies turn complex ideas into clear, testable, launch-ready products. Over 15 years, I've led large-scale digital transformations, built brand and design systems adopted across 8+ products, and structured prototyping workflows to accelerate strategic decisions.

Expertise:

- High-fidelity prototyping to de-risk product bets and secure buy-in,
- Design systems and brand identity at SaaS ecosystem scale,
- Precision interaction & UI design applied to complex workflows (EdTech, B2B SaaS, media),
- Close product collaboration with CPOs, CEOs and tech teams to frame and align vision,
- Generative AI integration for research, prototyping, workflows and content creation.

Clients include: BetaGouv, Vinci Construction France, Toolkit.ac, UNOWHY, SQOOL, Région Ile-de-France, Dailymotion, Solocal and more.

If you'd like to discuss a project, implement GenAI in your processes or brief me on a role, you can book a 30-min "Intro Call" directly here: cal.com/victorsooussan

Expérience

Victor Soussan Design

Principal Designer

juillet 2025 - Present (5 mois)

I help companies and startups with design leadership, hands-on prototyping and delivery. From early-stage experiments to product evolution, I set up

first branding, UI kits, and critical flows, while advising on team hiring and generative AI adoption. Open to freelance or full-time opportunities.

- 0→1 product design for startups and SMBs, and product improvement for large enterprises
- Toolkit.ac (construction management SaaS): V2 design, UI evolutions for web & mobile apps — 2,000 paying users
- Banque des Territoires: UX mission to optimize conversion for B2G marketplaces Aquagir and Numérique360
- AI explorations: custom GPTs, product & design workflows, front-end prototypes with Bolt and Claude

beta.gouv.fr

Lead Product Designer - France VAE

décembre 2024 - juillet 2025 (8 mois)

- Designed the collective VAE MVP and employer journey, with pitch decks, animated demos, and prototypes to secure buy-in and accelerate launch
- Explored the Accompagnateur experience: full notification email audit, Crazy-8 ideation, and a 2-day design-thinking workshop with field actors to map workflows and co-create solutions
- Structured the product workflow with 1-month seasons, clear delivery cycles and a prioritization matrix
- Optimized design operations and research: new Figma architecture, lot-based prototyping, 10 user interviews, weekly research rituals, and 2 syntheses shared in all-hands
- Revamped France VAE's brand identity and master deck templates for unified internal and external communication

UNOWHY

6 ans 3 mois

Product Lead - UI & Interaction Design

janvier 2023 - décembre 2024 (2 ans)

Neuilly-sur-Seine, Île-de-France, France

Strategic Leadership & C-Suite Collaboration:

- Co-piloted product leadership with bi-monthly C-suite participation and strategic alignment with CTO
- Created product strategy presentations for executive decision-making and organizational alignment

Major Product Initiatives:

- SQOOL Extend (virtual machines for education): 0-to-1 over 1 year, MVP deployed in 5 schools, C-suite strategic decks and go-to-market messaging
- SQOOL Protect (parental control): Full delivery in 3 months with core team, interactive flows, demo video, promotional deck

Design Lead

octobre 2020 - janvier 2023 (2 ans 4 mois)

Neuilly-sur-Seine, Île-de-France, France

- Spearheaded the shift from a legacy Android launcher to a suite of web applications for enhanced classroom supervision, applications browsing and download, document sharing, supported by a new web authentication system.
- Defined product identity for 5 brands and led the implementation of the design system.
- Led vision workshops with Product, Client, Tech teams, and users.
- Launched and designed several discovery projects to embody the product vision: prototyping, visual concepts, exploratory tests, CODIR presentations (Virtual Classroom, app catalog, document sharing).
- Recruited 3 product designers, drafted design briefs, documentation, and monitored delivery.
- Co-designed and facilitated 2 executive strategy seminars (3 days, 20 directors) to define 2027 UNOWHY roadmap

UX/UI Designer Senior

octobre 2018 - octobre 2020 (2 ans 1 mois)

Neuilly-sur-Seine, Île-de-France, France

- Led design for software solutions across 465 Ile-de-France high schools, impacting 300,000 devices. Solutions included device authentication, cloud storage, and collaborative tools.
- Drove UNOWHY's brand overhaul (UNOWHY, SQOOL, QOOQ) and launched Hi SQOOL brand with complete identity and communication strategy.
- Created automation tools for brand materials, enhancing efficiency in web, print, and video production.
- Partnered with marketing for brand promotion, ensuring consistent weekly engagement.
- Guided and developed two junior designers, focusing on objectives, creativity, and execution.

Toolkit

First Product Designer

juillet 2023 - juillet 2024 (1 an 1 mois)

- Sole product designer for the project's creation phase (from concept to launch)
- Developed brand identity and visual guidelines
- Designed main web and mobile user flows, from onboarding to core features
- Established the initial design system foundations for scalable product growth
- Worked directly with the CEO and CTO

dailymotion

Product Designer - Publisher tools & solutions

avril 2017 - octobre 2018 (1 an 7 mois)

Région de Paris, France

Designed and created interfaces for content management solutions for Dailymotion's publishing partners.

- Worked as part of an international team (Paris, NYC) to design a suite of management tools.
- Designed the video upload experience for the iOS/Android app.
- Led the strategy, concepts, interactive prototypes, and user testing for the app.
- Designed the web platform for video upload, livestream creation and streaming, dashboard, and player configuration.
- Developed a UI kit with taxonomy, component specifications, patterns, and animations.

Ogury

Product Designer

septembre 2016 - avril 2017 (8 mois)

Région de Paris, France

Played a transversal role for Ogury products, collaborating with agile teams to design features on various platforms and tools.

- Conceptualized and developed interactive prototypes, use-case/edge-case flows, and component designs for filters, search, date pickers, charts, and other UI elements.
- Contributed to the design of dashboards, advertising campaign management tools, and data visualizations.

- Worked closely with PMs, POs, devs, UI designers, data scientists, sales/account managers, and other stakeholders to ensure seamless design integration.

PagesJaunes SA

2 ans 6 mois

Product Designer - UI team lead

octobre 2015 - septembre 2016 (1 an)

- Played a pivotal role in designing upcoming features for the PagesJaunes mobile app, reaching 22 million downloads and 300,000 daily users.
- Developed and maintained consistent and platform-specific design patterns for iOS and Android, ensuring a seamless user experience across devices.
- Mentored a team of four UI designers, facilitating weekly meetings, promoting communication, and providing guidance on tools and asset management.

Key Projects:

PagesJaunes Homepage Redesign and Onboarding experience (iOS, Android), Android Material Design Evolution, Android Wear App Design

Product Designer

avril 2014 - octobre 2015 (1 an 7 mois)

- Crafted responsive designs for PagesJaunes.fr, catering to a vast audience of 15 million unique visitors per month.
- Fostered seamless collaboration between product owners, front-end developers, and design teams.
- Contributed to the establishment of the PagesJaunes design system, ensuring consistency across all platforms.
- Presented projects at internal events, such as User Club Day 2015, showcasing design expertise and impact.

Key Projects:

PagesJaunes Subscription/Login System Design, TheFork Partnership co-branding strategy, Renault R-Link Application Design Supervision

LOUIS 21
