Victor Soussan

Lead Product Designer

victorsoussan@gmail.com | +33 6 15 98 94 00 | Paris | victorsoussan.fr | linkedin.com/in/victorsoussan-product-design

SUMMARY

Lead Product Designer, 15 years of experience in B2B and B2G SaaS and complex business interfaces. Framing with a PM, delivery with a developer, or directly with Claude Code and Figma MCP. SQOOL suite: 7 applications, 500,000 students, team of 5 designers. Dailymotion publisher tools: 8,000+ users. France VAE for beta.gouv. PagesJaunes mobile apps: 22 million downloads. Available for freelance engagements and permanent roles (Head of Design, Design Lead).

EXPERIENCE

Lead Product Designer (Freelance), Victor Soussan Design — Jul 2025 - Present

Product design and prototyping for B2B, B2G and growing startups. Full cycle: framing, user research, design, delivery.

- Telemedicine company (3 months, April to July 2026), first product designer: design lead and product owner of the patient mobile app (iOS, Android), rebuilt in 30 days with a tech lead and two developers
- Same engagement: React design system of nearly 90 components, conversational AI assistant under regulatory constraints, product management moved from Jira to Notion
- Banque des Territoires: redesign of the search engine and conversion optimization for the B2G marketplaces Aquagir and Numérique360. UX/UI audit, user research, improvement backlog, product recommendations
- Toolkit.ac (construction SaaS): V2, site dashboard, planning, multi-device navigation
- FEPEM: user research for the launch of MonEmploiDirect, team mentoring, roadmap recommendations

Lead Product Designer, France VAE, beta.gouv.fr — Dec 2024 - Jul 2025

MVP of collective VAE: a platform that lets companies manage the Validation of Acquired Experience (VAE) of their employees.

- 10 user interviews with VAE candidates
- 2 days of design thinking workshops with decision makers and vocational training organizations
- Metrics, framing and launch with the product manager
- Company journeys: sign-up, candidate follow-up, dashboards

First Product Designer, Toolkit (construction tech) — Jul 2023 - Jul 2024

Sole product designer of a construction tech startup, from concept to launch, working directly with the CEO and the CTO. 2,000 paying customers. Series A raised.

- All web and mobile journeys: onboarding, zone-based planning, progress tracking, site team coordination
- Three versions shipped in 12 months: funding prototype, working V2, mobile V3
- Visual identity and brand guidelines

Product Lead UI & Design Manager, UNOWHY (SQOOL) — Jan 2023 - Dec 2024

Led product design and design for the SQOOL suite: 7 web applications, 500,000 students, 465 schools in Île-de-France. Team of 5 designers. Member of the Executive Committee.

- Suite grown from 5 to 7 applications in 2023-2024: SQOOL Extend (virtual machines) and SQOOL Protect (parental control)
- Co-led 2 executive seminars: 2028 product vision, 2024 roadmap, manifesto
- Co-wrote strategic decks with the CPO for the CEO and the executive committee
- Hired, trained and managed 5 designers (3 product, 1 brand, 1 content)
- UX/UI supervision: Classe (real-time supervision), Partage (storage), MDM (device fleet management, data viz), Applications (catalog)

Head of Design, UNOWHY (SQOOL) — Jan 2020 - Dec 2022

Design lead for the transformation of SQOOL: from an Android launcher to an ecosystem of modular web applications.

- Connect: React web dashboard for tablets and PCs (modular home, application catalog, analytics). Tested internally for a year, it redirected the company's application strategy
- La Bulle: persistent floating interface concept for tablets (contextual shortcuts, screenshot, casting). Animated vision prototype
- Application catalog: app store style interface with ratings, pedagogical tags, search and back-office
- Visual identity of the SQOOL ecosystem: logos, app icons, typography and colors for 5+ applications

Senior Product Designer, UNOWHY (SQOOL) — Oct 2018 - Dec 2019

Redesign of the SQOOL educational platform interfaces: Android tablets deployed in middle and high schools of Île-de-France (465 schools).

- Hi-SQOOL (2019): unified dashboard for high school students (sessions, cloud storage, application catalog, authentication). MVP shipped in 6 weeks with a PO and 2 developers, presented to the regional council
- SQOOL Séances: redesign of the web application for creating and broadcasting lessons (teacher to student tablets)
- SQOOL Manager: UI consistency on the desktop management tool

Senior Product Designer, Publisher tools & solutions, Dailymotion Apr 2017 - Oct 2018

B2B tools for premium video publishers: 8,000+ direct users, 50 to 100 publishers (CBS, ESPN, CNN, BBC, Canal+, Le Monde), 100,000+ videos processed per month.

- Video CMS, desktop and mobile upload (iOS, Android), livestream, Dailymotion player customization
- Animated interactive prototypes and interaction specifications for the engineering handoff
- The company's first Storybook UI Kit, designed with Sketch and integrated in agile with developers
- Publisher admin dashboard: data visualization, audience metrics, content management

Senior Product Designer (Freelance), Ogury (AdTech) Sep 2016 - Apr 2017

Analytics dashboards and programmatic campaign management tools for a growing AdTech platform. Clients: major advertisers and publisher networks.

- Campaign management interface: creation, targeting, budget allocation, real-time performance tracking
- Complex data visualization (D3.js, Angular): time comparisons, drill-down, multi-criteria filtering

Senior Product Designer, UI team lead, PagesJaunes (Solocal) Oct 2015 - Sep 2016

New features for the PagesJaunes mobile app: 22 million downloads, 300,000 daily users. Team of 4 UI designers.

- Redesign of the homepage and onboarding journey (iOS and Android)
- Material Design evolution of the Android app
- Design of the Android Wear application

Product Designer, PagesJaunes (Solocal) Apr 2014 - Oct 2015

Responsive design for PagesJaunes.fr: 15 million unique visitors per month.

- Sign-up and login system
- Co-branding and product partnership with TheFork (LaFourchette)

Art Director / UX Designer, Louis 21 (digital agency) Nov 2010 - Apr 2014

Art direction and UX/UI design in a digital agency. Key accounts: EADS (Airbus Group), Bouygues Immobilier, Sony Music, AFM Téléthon, Henner.

- UX/UI design of EADS's internal social network for senior executives: 10,000 users, desktop and tablet
- Bouygues Immobilier Android application: 5,000+ installs
- AFM Téléthon 2013 iOS and Android applications: 12,000+ installs. Marketing concept, user scenarios, prototyping, interface design

Art Director, Groupe Hommell, freelance, Publicis Groupe (internship) 2005 - 2010

Art direction in magazine publishing (2005-2009), freelance for fashion, retail and corporate brands (2009-2010), advertising agency internship (2005).

- Déco Loisirs Magazine: 300,000 copies per month, distributed with 10 major regional dailies. Covers, iconography, layout, print production
- Freelance art direction: Galeries Lafayette, L'Oréal, Orange, Celio, Reed Business/Stratégies, Ykone
